5 Must-Have Claude Code Skills for Creators

Your 5-Tool Stack for Automating Content with Claude Code

01

Claude Video Vision

Feed video files directly to Claude for automatic analysis, transcription, and content brief extraction — no manual note-taking. Install at github.com/jordanrendric/claude-video-vision

QUICK TIPS

- Drop in raw footage and ask Claude to extract your content brief automatically
- Works on interviews, webinars, B-roll, and short-form clips

02

HyperFrames

Turn any Claude-generated design into an animated MP4 video — no After Effects, no video editor required. Build your creative in Claude, export with HyperFrames. Install at github.com/heygen-com/hyperframes

QUICK TIPS

- Pair with Claude's built-in design output for a full content pipeline
- Produces polished short-form videos ready for Reels or TikTok

03

Last 30 Days Skill

Auto-review your last 30 days of content activity, surface patterns, and get Claude to suggest your next 5 post ideas based on real data. Install at github.com/mvanhorn/last30days-skill

QUICK TIPS

- Run it weekly as your AI content strategist that never forgets
- Identify your highest-performing topics instantly

04

Supadata

Pull structured YouTube data, transcripts, and comments directly into Claude for competitor research, keyword mining, and trend analysis — no manual copy-paste. Access at [Supadata](#)

💡 QUICK TIPS

- Feed YouTube data directly into your Claude research workflow
- Analyze comment sentiment and top-performing topics at scale

05

Kie AI

Instantly host local video and image files as public URLs so they can move between Claude Code automations and external APIs (Blotato, HeyGen, etc.) without breaking your workflow. Access at [Kie AI](#)

💡 QUICK TIPS

- No cloud storage setup needed — instant public URLs for any local file
- Used inside every Claude Code content automation pipeline

Ready to go deeper?

This cheat sheet is just the start. In Vibe Coding Mastery, you get the full step-by-step system for automating your content with Claude Code — from research to publishing.
